

Villa La Kuka Characterization

It is located on 251 Ave, 21/2 Km. Central Road, Punta Brava, La Lisa, in Havanaprovince. It has an extension of 17,500 square meters of land and made up of 13 cabins. These cabins are on investments for a capacity of 42 people. This facility has a restaurant with a kitchen and a dining hall, two “ranchones”, a cafeteria, a kiosk in Cuban currency (CUC), two barbecues, a sentry box, a dance hall, a game room, a bathing area made up of a freshwater pool and an audio booth.

The environment of our facility is covered by vegetation, timber and fruit forests. The climate is characterized by being a fairly warm period in some months and, in the months from October to February, a cold climate. The characteristics of the construction are masonry walls with an antique structure, plate and gutter-tile roofs, tile floors, and windows made of wood and glass.

Our objective is to give an overview of the characteristics and the facility location, as well as the services and attentions provided to our customers in all aspects. In addition, we want to refer to the prospects of our center for the coming years. Our purpose is to provide customers with a short, but very pleasant and welcoming stay, and thus, comply with all established standards and work to provide better service and customer entertainment; that is why we work to maintain a healthy environment.

The first objective of our installation is to provide a day-pass

service up to a capacity of 70 people.

Acquired by our province in September 2016, the facility previously belonged to the Havana City Accommodation Enterprise. Currently there are 13 cabins out of use with capacity for 42 people. These cabins will also provide service in the coming years.

Accommodation Services.

Our animation is mainly based on Cuban music. You can also enjoy nightly activities in the week with a project called "Santa Locura" with different types of shows, such as: on Thursdays karaoke night, on Fridays the great Kuka Temba, on Saturdays night Cabaret, and on Sunday Kuka Temba for clients who prefer it. In addition, the different typical dishes of our area: moro-rice, yellow rice, fresh vegetables, natural juices, roast meats, fried tubers, different fries, Cuban desserts, and fish.

All the services provided are performed by qualified personnel for the activity and extensive experience in these affairs. We must emphasize the workers are also of peasant and laborer descent. They not only transmit quiet and good treatment, but due to their high value of sense of belonging; they do an excellent job in meeting the customers' expectations. Our clients enjoy a cheerful and responsible collective staff, something that is highly appreciated by those who visit us.

The facility has a hall and an information board. It also has places to visit inside the facility, as well as a telephone for work functions. There is also public telephony for campers. The audio of the installation is in very good condition.

The rental of the recreational facilities is performed by the
