Rehabilitation services:

Today our Province has 25 rehabilitation services, including 2 in nursing homes for old folk, 4 in hospitals and 19 in polyclinics; in these 19 polyclinic services our population can access every day from Monday to Friday and from 8:00 am to 7: 00 pm.

We offer the population:

- Physiatrist consultation.
- Consultation of Psychoprophylaxis for pregnant women, where they are prepared for childbirth.
- Consultation on smoking cessation.
- Early care consultation.
- Defectology consultation.
- Speech and speech therapy consultation.
- Nutritional counseling consultation.
- General physiotherapy services, with a gym for children and adults, heat, massages and electrotherapy.
- Consultation of natural and traditional medicine.
- Podiatry consultation.
- Consultation of chronic non-communicable diseases.
- Group therapy for chronic diseases.
